TERSELY TOLD.

Sam Bosso, who has been ill for some time with yellow fever, has recovered, and is on the streets again.

Judge John Avery returned yesterday afternoon from Chicago, where he had been for the past two weeks on legal business.

Ola Johnson left Sunday for Nashville, where he will remain for a few days, after which he will proceed to Columbus, Ga., to visit his brother.

"The Want Ad Way" is the answer to the majority of people who ask: "How will I get about it?" Try The Journal's want ads, for yourself.

Rev. Father O'Brien, of Montgomery, reached the city yesterday afternoon and will conduct services at St. Joseph's church today. Father O'Brien, who is a native of Pensacola, will remain in Pensacola during the illness of Rev. Father Harkoff.

R. Bischoff, who has for years conducted a barber shop at 204 South Palafox street, but who recently sold it, leaves for St. Louis where he will in future reside. Mr. Bischoff has spent nearly 50 years in Pensacola and he now goes to spend the remainder of his life in the city of his birth, St. Louis.

The Board of Public Safety made an inspection Friday of the fire department. The inspection was primarily to ascertain what men required new uniforms, and with the exception of three all were found to be in need of them. The equipment and stock were also inspected and found to be in first class condition.

Perfectly natural, Blue Ribbon Lemon and Vanilla are just the pure concentrated extract of the fresh fruit. "Takes less. Flavors perfectly."

Much More Valuable.
There are lots of young girls who are devoting lots of time to music lessons that will learn after marriage that cooking is a more valuable accomplishment than thumping on a piano.—Milligan Herald.

THE PENSACOLA CLASSICAL SCHOOL

OPINION OF EDUCATORS AS TO ITS WORK.

Prof. Walter Miller, professor of Greek in Tulane University, after visiting the classical school, wrote the following unsolicited opinion to a friend and colleague:

"The Pensacola Classical School is doing a splendid work for the cause of southern education. It is established upon broad principles, it cherishes the highest ideals of scholarship; it maintains a high standard of excellence; and by the best modern methods and equipment it secures thoroughness of training comparable with that afforded by the great fitting schools of the east. To my mind the Pensacola Classical School is one of the very best secondary schools of the south."

Dr. Venable, president of the University of North Carolina, writes: "It gives me pleasure to testify to the thoroughness of the preparation of the students who have come from your school to the university. We should be glad to have more of the same type."

Dr. Geo. Petrie, professor of Latin and History in the Alabama Polytechnic Institute, writes: "I consider the Pensacola Classical School one of the best fitting schools in this section of the south. I can confidently endorse the thoroughness of its work and the healthy, manly atmosphere that pervades the institution."

H. CLAY ARMSTRONG,

DONATIONS TO THE RELIEF FUND

Much More Money Needed to Assist In Caring For the Sick of the City.

While a neat sum of money has been raised by the citizens of Pensacola and those in towns nearby, where persons are interested, the amount so far is inadequate to the demands. Trained nurses, medicines food and treatment by physicians which have been furnished to a large number of families require considerable money, and has about exhausted the amount donated.

Yesterday the Sunday school children of Bagdad contributed \$24.00 which has been placed to the credit of the fund. The contributions are as follows:

SOLDIERS "SALT HOSS"

Often Leaves Him as Bad as Wounded
Army food has ruined the digestion of many good men. A veteran speaking of how a wise selection of food helped him, says:

"For over 35 years my stomach gave me an immense amount of trouble. Everything I put into it seemed to cause an internal (and internal) revulsion which unfitted me more or less for business. My doctors told me that the trouble was all brought about by the salt pork or salt beef (or horse) which comprised the main part of the food supplied me by Uncle Sam during my three years service in the great Civil War."

"For many years I tried cracked wheat, oatmeal, boiled rice, and many other things, but my stomach kept up its unpleasant grumbling and painful aches."

"A little over a year ago while in Detroit on business, a friend sitting at the breakfast table with me, ordered as a starter, a dish of Grape-Nuts. 'Make it two,' said I. It was my first experience with Grape Nuts food and I was delighted to find not only that it was most palatable, but that I had much less of the internal commotion than usually followed my morning meal. Since then I have eaten Grape-Nuts every morning for breakfast and frequently for luncheon also."

"My stomach has been toned up and is stronger than it has been since 1862. I have no more of the old pains and uneasiness and I am better able to attend to my business. This result I attribute to the use of Grape-Nuts, as I have taken no medicines meantime." Name given by Postum Co., Battle Creek, Mich.
There's a reason.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I had 'em'—yes—a writhing, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder about the same length of a worm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I repeat this testimonial will appeal to other sufferers." Chas. Buckstock, 1355 Divinity Place, West Philadelphia, Pa.

No Wonder He Skipped.

The only torments a peacemaker has to endure are the poems that are sure to show his steps after such an event. No wonder President Roosevelt desired a trip South. Poet Laureate Winsor of England will probably have his effusion in Washington on the President's return.—Gainesville Sun.

COOL WEATHER TO CONTINUE TO-DAY

Though It is Not Expected that Frost Will Appear This Early In the Season.

While the present cool weather, which is welcome to Pensacolians just at this time, will continue through today and tonight, and possibly during Monday, it is not expected that frost will appear here during the present cold spell.

The local weather bureau reports the temperature at 50 degrees during Friday night, and while it was possibly somewhat colder last night, it is hardly possible that the temperature will reach the freezing point, which is necessary when frost forms.

As will be seen, the present temperature is very much below the seasonal average at Pensacola, and it is believed by many that an early frost will occur.

Weather Conditions.
Observer Reed, in his summary of weather conditions, yesterday said:

"The cool wave and fair weather has now reached the Atlantic and Gulf states and the temperatures are below the seasonal average over practically the whole country, the lowest temperature being 14 degrees in northern Nevada. Killing frost was observed this morning at Kansas City, heavy frost at Chicago, Omaha, Fort Smith, Birmingham and Atlanta and light frost at Greenwood, Miss., Montgomery and Charlotte."

"The depression which was in the lower Lake Region is moving off over Maine; it has caused brisk to high westerly winds in the lower Lake Region and on the north Atlantic coast; a gale of forty-eight miles from the northwest is reported from New York. It was attended by generally light rain Friday over New York and New England states; light rain has also fallen along the middle Atlantic coast and at scattered places in the southeast Atlantic and Gulf states. "The crest of the high pressure now reaches from the Pacific northwest southeastward to the Carolinas and fair and cool weather will continue tonight and Sunday with light to fresh northeast winds."

MORE PRAISE FOR FUMIGATING CORPS

The fumigating corps is receiving more praise now than was formerly the case. In fact where the men formerly met with opposition and were spoken of in harsh terms they are now praised for the excellence of their work, especially from those who can appreciate the advantages of having their homes fumigated. Edward Anderson, of North Alcaniz street, whose home was fumigated yesterday, last night stated that not only was the work done thoroughly, but that the men under Foreman Naylor, conducted themselves in a most gentlemanly manner, and did everything possible to keep the family from being inconvenienced.

T. H. LANNON & CO.

THE FRIGATE BIRD.

It Has the Greatest Wing Power of Any Flying Animal.

It has been demonstrated that the wing area of different flying creatures varies from about forty-nine square feet per pound of weight in the gnat and five square feet in the swallow to half a square foot per pound of weight in the Australian crane. The frigate bird has the most wonderful wing power of any of the flying animals, being able to cut the air at the rate of 100 miles an hour and live continuously on the wing day and night for a week or ten days. Ornithologists of note even give it as their opinion that a healthy individual of this species would be equal to the task of making a trip around the world without once closing its wings in rest. It is also claimed that some species can remain motionless in the air for hours without flapping their wings. That they can exert three times the horsepower per pound of weight that a man can and about the same amount more than a horse. It is, without question, a fact that birds in general can exert physical energy that is without parallel in nature. It is generally supposed that birds are lighter, bulk for bulk, than other animals, but repeated experiments have proved that there are no grounds upon which to base such an opinion.

Safe.

"But," said the lawyer, "your case seems hopeless. I don't see what I can do for you. You admit that you beat your wife."

"Yes," replied the defendant, "but my wife's testimony will discount that. She'd never admit that she was beaten."

No Views.

Mrs. Gushington—I suppose, now that you have been abroad, you have your own views of foreign life? Mrs. Newrich—No, we ain't got no views. We didn't take no camera; it's so common.

Acquaint yourself with the offers in The Journal's Want Ad. Columns.

Are You Going to Build?

If so, you no doubt realize that Good Plumbing is one of the most important elements of the home.

There is no other feature which will appeal so strongly to the careful housewife as modern, high-grade plumbing, while on the other hand, nothing could be more disagreeable or injurious to the health of the occupants than a poor plumbing system. Good Plumbing is always cheapest in the end.

We take particular pride in the fact that we do Good

Plumbing—the honest kind—and use the very best fixtures, namely "Standard" Porcelain Enameled Ware, every piece of which is guaranteed by the makers to be strictly first quality.

You want the best. Let us solve the plumbing question for you. We make no charge for plans and suggestions and are convinced of our ability to please the most exacting.
